Health Department revises eligibility requirements for H1N1 vaccine clinic

The Health Department will hold its next H1N1 flu vaccination clinic on Saturday, November 7, 2009 from 7:30 to 11:30 AM at the Health Department. Due to limited vaccine availability, it has become necessary to follow more restrictive eligibility requirements for individuals seeking the H1N1 vaccine.

Only those who fall into one of the following high-risk target groups will be able to receive the H1N1 vaccine at this clinic:

- Pregnant women
- Household contacts and caregivers for children younger than 6 months of age
- Children 3 years to 18 years of age with chronic medical conditions
- Health care and EMS workers

These eligibility requirements take the place of any previously published requirements. Please continue to check the Health Department website at www.vanwertcountyhealth.org for additional clinic updates.
