The Van Wert County Health Department will be having a clinic to administer H1N1 vaccine to the following individuals:

- Children aged 6 months through 24 years of age, which includes children who may have missed the school based clinics due to absence or illness
- Pregnant women
- Health care workers
- Household contacts and caregivers for children who are aged 6 months or less
- Adults aged 25 through 64 years of age who are *medically high risk*

The clinic will be held on Thursday November 19th from 1:30pm to 6:00pm at the Health Department. This clinic will be held on a walk in basis. There is no charge for the vaccine.
